

CO-OCCURRING ENHANCED 3.1

Each resident receives a comprehensive assessment and is referred to our psychiatrists for additional care if indicated. Research demonstrates that treating addiction and mental health issues separately does not support favorable outcomes. Our treatment includes traditional and holistic therapies that will allow each recoveree to develop skills to manage their unique needs and challenges.

PERSONALIZED TREATMENT

Work with your case manager to identify meaningful goals and develop a plan to achieve them.

SMALLER GROUPS

Smaller therapeutic, substance use and psycho-educational groups ensure you get the support needed.

POST-PARTUM CARE

Receive treatment during and after pregnancy; motherhood suites are available for you and your infant.

COMMUNITY INTEGRATION

Collaborate with external services to prepare for independent, sober living after discharge.
